Frankie's was designed to be the healthier alternative to traditional snacks everyone already loves, like Cheetos for example. We created a guilt-free organic alternative for the price of a conventional snack. What sets us apart from other puffs currently on the market is we incorporated sprouted quinoa & sprouted brown rice in our base in order to appeal the health-conscious customers. Overall the taste and crunch are not compromised, making the better-for-you alternative a great choice! The reason we use sprouted in our base is that sprouted quinoa and sprouted brown rice permit easier digestion, it is much more nutritious, and consists of an addictive crunch like a chip.
